

Influenza: Burdens, Disparities, & Vaccine Effectiveness

Tuesday, December 8, 2020

12:00 pm ET

Webinar Registration: https://viriniatech.zoom.us/webinar/register/WN_2svQ39EpR1Ws6afle97iKg

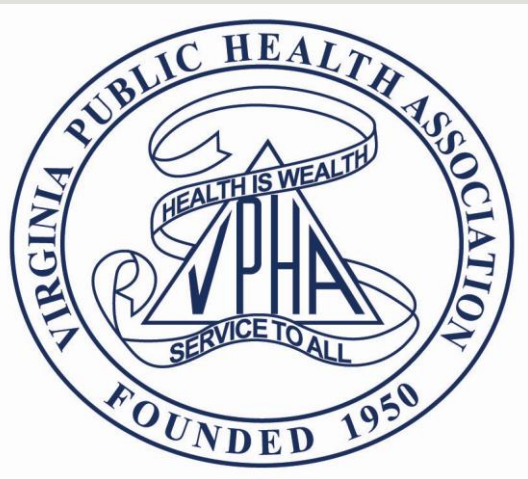

PRESENTER: FERDAUS HASSAN, PH.D., MEDICAL SCIENCE LIAISON (DC/MD/VA)
SANOFI PASTEUR, U.S. MEDICAL AFFAIRS

Dr. Hassan has extensive professional experience in the areas of vaccine and virus research and has published more than 50 research articles in peer reviewed journals. He is a strong advocate and passionate about vaccines and believes that no one should suffer from vaccine-preventable diseases.

Presentation Objectives:

1. To understand the clinical signs and symptoms of influenza.
2. To understand the disease burden caused by influenza virus.
2. To understand influenza vaccine effectiveness and disease amelioration.
3. To discuss the optimal timing for influenza vaccination.

Sponsor: Virginia Public Health Association
